BILLING CODE 6717-01-P

[Docket No. CP95-324-000, et al.]

National Fuel Gas Supply Corp., et al.; Natural Gas Certificate Filings

April 24, 1995.

Take notice that the following filings have been made with the Commission:

1. National Fuel Gas Supply Corporation

[Docket No. CP95-324-000]

Take notice that on April 13, 1995, National Fuel Gas Supply Corporation (National Fuel), 10 Lafayette Square, Buffalo, New York 14203, filed an application with the Commission in Docket No. CP95-324-000 pursuant to Section 7(b) of the Natural Gas Act (NGA) for permission and approval to abandon by transfer various nonjurisdictional production and gas supply facilities and delivery points in the Commonwealth of Pennsylvania to its affiliate, National Fuel Gas

Distribution Corporation (Distribution), all as more fully set forth in the application which is open to the public for inspection.

National proposes to transfer 20 pipelines, 9 associated regulating and metering stations to Distribution, and to abandon 155 delivery points located along these pipelines.¹ National Fuel states that service to existing customers served off these pipeline facilities would not be affected by the proposed transfer to Distribution. National Fuel also states that the net book value of the facilities it proposes to transfer to Distribution totals \$511,987. Following the transfer of facilities to Distribution, National Fuel states that the facilities would then be subject to the state commission's jurisdiction.

Also following the transfer of facilities to Distribution, National Fuel states that it would continue to own and operate four well lines connecting wells operated by Seneca Resources Corporation (Seneca), an affiliate of both National Fuel and Distribution, to the facilities proposed for transfer to Distribution. As of the date of the instant filing, National Fuel states that it has not determined whether the well lines would be sold to Seneca, or whether one or more of these lines would be abandoned after the wells are plugged. National Fuel requests whatever authorization may be necessary to transfer these well lines to another party, or to abandon the lines. National Fuel's maps indicate that these four well lines are located in Armstrong and McKean Counties, Pennsylvania.
